## WILSON SEEKS INTERVENTION

WASHINGTON, October 14.—A heated all day session devoted almost entirely to discussion of labor's proposal to arbitrate the steel strike, during which two attempts at postponement and a substitute resolution proposed by the American Steel and Wire Company were defeated. The conference resumed its session this morning with the same agenda. The labor union was again before the conference today without recommendation by the central committee, but with an amendment proposed in committee by Samuel Gompers, president of the American Federation of Labor, provided that the arbitration committee be chosen by the conference members, "from members or non-members" of the conference. In the resolution, Charles Chabourne announced that the resolution was favored by a majority of the members of the committee. It had received the affirmative vote of two groups and before, could not be favorably reported. A substitute resolution proposed by Mr. Chabourne failed to receive the approval of any of the three conference groups although it was framed so as to avoid mention of the steel strike. The union representative accepted of Mr. Gompers committee of six to address all serious labor disputes, its mission to be final after an attempt to reconcile differences had been made by a joint committee employers and employees. The representatives would be chosen both by those "put on the job" and those remaining in the employ of the several companies. The climax of the day's tense sessions one of which was reached in the midst of confusion late in the day when Samuel Gompers, leader of the labor delegation made an impassioned plea for intervention in the steel strike. He reviewed the negotiations leading up to the calling of the strike on September 22.

Looking directly at Judge Eliot H. Gary, chairman of the United States Steel corporation, seated with the public group less than fifteen feet away, the labor leader declared that the steel corporation had "acted like a Bolshevik" in refusing to meet representatives of the other party in dispute. Judge Gary kept his eyes fixed on the labor leader's face throughout the speech but made no reply when Mr. Gompers concluded.

Outside the conference hall, labor delegates declared that the inference would be a flat failure unless it took action on the steel strike. Several intimates that the labor delegation might withdraw from the conference if the arbitration resolution were defeated also more conservative representatives did not believe the group as a whole contemplated any such drastic action. That the employers group does not favor intervention in existing disputes, either under the labor substitute arbitration proposal or the conference resolution, was indicated by the remarks of the inference of L. F. Loree, president of the Delaware and Hudson and a statement issued tonight by Magnus W. Alexander, managing director of the National Industrial Conference center. The latter expressed the belief that the majority of the delegates were "averse to turning over" while a general arbitration board, while Mr. Loree said that action were to be taken in the steel strike, it also would be necessary to intervene in the local strike called for November 1 and the numerous other labor disturbances.

The conference rules were gain the subject of warm controversy at today's sessions, members of the public group criticizing and labor delegates defending the group method of procedure.

## WHEAT RECEIPTS SHOW SLIGHT DECREASE

New York, Oct. 14.—Wheat receipts from farms for the week ending October 5th, amounted to 1,187,000 bushels, a decrease from the previous week of 1,442,000. The United States grain corporation announced today for the same week last year receipts were 27,559,000. Total stocks of wheat in elevators and mills on October 3 totaled 281,671,000 bushels, a weekly gain of 9,819,000. Production of flour for the week amounted to 3,316,000 barrels, a weekly loss of 196,000.

## WILL SEND U. S. TROOPS TO SILESIA

WASHINGTON, Oct. 14.—American troops will form part of the force to occupy the province of Silesia, if such action is ordered by the supreme council in Paris will sail this week from New York on the transport President Grant. Secretary Baker and Mr. Baker could not say tonight.

## Report Many Steel Workers Back On Jobs

PITTSBURGH, Pa., Oct. 14.—More gains in men and greater production were reported today by the strike of steel workers, started up additional departments and in other plants, especially those of the Carnegie Company workmen who had been on strike since Sept. 22, reported for work according to company officials. Among the plants declared to have started up, parts of their works were the A. M. Byers Company and the Oliver Iron & Steel Company. At Donora, where the American Steel and Wire Company has a plant it was claimed a larger number of men returned. The gains claimed by the employers were slightly offset by the strike of bricklayers in some of the steel works along the Monongahela river. National headquarters of the union had no formal statement to make today regarding the situation. It was stated, however, that the strike remains unchanged though the union has information from the various districts. Reports of any considerable number of men returning to work are denied by union leaders. A petition presented to the Pittsburgh city council today by a committee of local leaders asking for a public hearing on complaints against police magistrates and officials growing out of the strike failed of adoption. There were three roll calls and each time the vote resulted in a tie four to four. It is expected another effort will be made to have the council grant a hearing. The petition among other things charged that the mayor, director of public safety and chief of police "have arbitrarily denied organized labor the holdings of meetings in the usual and ordinary places" and with the intention of discriminating against organized labor and not in the interest of labor and order.

## Back bone Of Longshoremen Strike Broken

NEW YORK, Oct. 15.—Harbor boat men, port and terminal workers agreed to accept the terms of the railroad administration early this (Wednesday) morning and ferry boats, tugs and lighters will resume operations within a few hours.

New York, Oct. 14.—Six of the largest longshoremen's local unions voted today to return to work, John F. Riley, chairman of the longshoremen's strike committee, announced tonight. These locals, he said, have a combined membership of 15,000 workers.

The backbone of the strike has been broken, declared Mr. Riley. He predicted that 50,000 men will be back at work by Saturday. Three of the locals which voted to return are in Manhattan and three in Brooklyn.

Work along the shore in Brooklyn will be resumed generally it was said. The men there were advised to await developments until December 1. If the cost of living has not been materially reduced by that time and if no increase in wages is awarded to the longshoremen in the interval a strike will be considered the officials promised the men.

## GOVERNMENT RAILROAD TODAY MADE A COMPROMISE

GOVERNMENT RAILROADS tonight made a compromise offer to the port and terminal workers and the harbor boatmen's unions involving a six day week and a flat increase of \$10 a month. The men are voting tonight on the proposition in Jersey City and Manhattan. If the favorable, ferry boat, tug and lighter operations will be resumed at once.

## ANARCHIST RING EXPOSED AT GARY BY U. S. OFFICERS

Many Under Surveillance  
in Connection  
with Bomb Plots

## MANY RAIDS MADE TUESDAY

CHICAGO, Oct. 14.—Military authorities today continued their investigation into alleged radical activities in connection with the strike of steel workers at Gary, Ind., and questioned several men including Anton Gorski, who is said to be under surveillance in connection with the explosion of a bomb in the Chicago postoffice in September 1918. Reports of discovery of a widespread plot against military cantonments were denied tonight by Col. W. S. Mapes, commanding the federal troops at Gary. Reports that troops were being sent from the Gary district to protect government property in various parts of the country were also denied by Colonel Mapes.

Major General Leonard Wood, commanding the central department of the United States army was in conference with Col. W. S. Mapes, commander of the troops here, today. Drastic measures to combat the "red" plots are said to have been arranged by the military leaders. Colonel Mapes announced tonight that no confession had been obtained from Gorski in regard to the Chicago federal building bomb plot, but it was intimated that Gorski would be a federal witness. The federal officers are now searching for a "Alexander Ivanoff, Gary steel worker and electrician, who is said to have been implicated by Gorski as a maker of the thirty-three bombs which were sent to prominent men throughout the country in forged wrappings of Gimbel Brothers Store in New York.

Intelligent officers continued their raids in search of radical literature. They reported finding a quantity of radical propaganda printed in Germany and a large German flag made of silk. A platoon of federal troops was stationed near the steel mills after reports had been made that bricks and horseshoes had been thrown thru the windows of steel plants by strikers.

The strike bulletin issued by the steel workers today disavowed the proclamation issued yesterday by the communist party of America, calling on the working men to establish a dictatorship and wrest control of Gary from the federal troops.

General Wood today gave the strikers permission to hold a public mass meeting in a Gary park tomorrow. This will be the first outdoor meeting permitted since the federal troops arrived in the city a week ago. The meeting tomorrow will be addressed by the John Fitzpatrick, chairman of the National Strike committee, and other labor leaders.

Following alleged radical utterances Edward Mulholland, president of the Gary Screw & Bolt Workers' Union, has been expelled from the union and he has also resigned from the steel strike committee. Mulholland is accused of having said that members of the American legion could not belong to a union.

The Indiana state building trades union has also made a disavowal of the radical activities in behalf of the strike.

## HAVE NO FEAR OF "FLU" EPIDEMIC

ST. LOUIS, Oct. 14.—There is no indication of an epidemic of influenza this winter, according to speakers at the convention of the Association of Military Surgeons of the United States in session here today.

Col. Victor C. Vaughn in an address declared the dirtier the atmosphere and the more bacteria one breathed, the more immune he would be to the disease. This was proved, he said by statistics compiled during the war which showed that the greatest death rate from disease was among men from rural districts.

## CAILLAUX TRIAL STARTS NEXT WEEK

PARIS, October 14.—Havas-Joseph Caillaux, former premier of France will be placed on trial before the high court Thursday October 23, according to Le Jour naal today. Ex-Premier Caillaux, charged with intriguing to bring about a premature and dishonorable peace with Germany has been in custody for a year and a half, awaiting trial. Last month he was removed from prison to a hospital because of ill-health. On September 17 the commission of the high court decided after a prolonged inquiry that he must appear before the court to face the accusation against him.

## CROSS CONTINENT AIR RACE ENTERS IT'S FINAL PHASE

Lieutenant Maynard  
Leaves 'Frisco on  
Return Trip East.

RENO, Nev., Oct. 14.—Lieutenant B. W. Maynard, enroute on his return trip from San Francisco to Mineola, N. Y., who left here at 4:10 o'clock this afternoon, reached Battle Mountain, the next control station 169 miles east, where he will spend the night.

San Francisco, Cal., Oct. 14.—Lieut. B. W. Maynard, winner of the first half of the army transcontinental air race began his return trip to the Atlantic coast from here today. Leaving San Francisco at 1:22:53 p. m., he crossed the Sierra Nevada mountains and landed at Reno, Nevada, a distance of 187 miles in 167 minutes.

Lieutenant Col. T. C. Bowen, who arrived here at 11:31 a. m. today, was the eighth aviator to complete the westward trip. Six entrants rested here today, making minor repairs on their machines preparatory to starting on their journey eastward tomorrow morning. Captain H. C. Drayton had a narrow escape from serious injury here today when his machine nosed into the field and broke both blades of a propeller just as he was starting on a trip to Sacramento for supplies.

The five besides Drayton here were Lieutenant L. S. Webster, Lieutenant Alexander Pearson, Captain J. O. Donaldson, Lieutenant Earl Manzmann and Captain Harry Smith.

Many Out of Race. Chicago, Oct. 14.—While twenty-five aviators straggled across the country endeavoring to complete the first lap of the transcontinental reliability air race, Lieutenant B. W. Maynard, first flier to finish the trip, took off from San Francisco today at 1:22:53 p. m. Lieutenant Maynard had reached Reno, Nev., 187 miles away in 168 minutes, and proceeded further east to spend the night.

Of the sixty two starters in the race October 8, thirteen had today completed the first lap, having landed at San Francisco. Lieutenant Col. T. C. Bowen was the only flier to finish the last lap today.

Twenty four airmen are out of the race on account of accidents; five fatalities have resulted from these accidents. The largest plane in the race was a Martin bomber and crashed to the ground near Yutan, Nebraska, thirty miles west of Omaha, this morning when it became entangled in telephone wires while making a forced landing in a fog. Captain Roy N. Francis, first pilot, and his three passengers escaped without serious injuries.

## AIR MAIL SERVICE PILOT KILLED

Baltimore, Md., Oct. 14.—His airplane striking its way thru mist that hung low over this city today, Pilot Lyman W. Doty of California, a flier of the air mail service between Washington and New York was burned to death when the plane fell to earth and caught fire. Only his charred remains were left. The machine and four bags of mail were destroyed.

## U. S. WILL TAKE STEPS TO AVERT STRIKE OF MINERS

Question Discussed at  
Length at Cabinet  
Meeting.

## CALL OFFICIALS TO WASHINGTON

WASHINGTON, Oct. 14.—Immediate steps to avert the threatened nationwide strike of bituminous coal mine workers are to be taken by the federal government. After President Wilson's cabinet had discussed the question at length today, Secretary Wilson of the department of labor announced that he would invite John L. Lewis, president of the United Mine Workers of America and John L. Brewster, representing the operators to confer with him Thursday.

Efforts of the miners and operators to reach an agreement on the demands of the mine workers which include increased pay and shorter hours, have failed. Secretary Wilson is hopeful that some amicable adjustment of the controversy can be made. It is understood that he will impress upon both Mr. Lewis and Mr. Brewster the importance of uninterrupted operation of the mines upon the life of the nation.

The possible effect of such a strike on the railroads is understood to be uppermost in the minds of government officials. A shut down of the mines would result in a paralysis of the transportation system within a short time. Industry also would be brought to a standstill with public utilities stopped and shipping tied up.

President Lewis of the miners' union who has been in this city since the outbreak of the strike, officials went to Indianapolis today to prepare the call for the strike on November 1. Officials hope the issuing of the call will be deferred until after the conference here.

Should the conference be barren of results further action by the government is expected but no one in authority would venture to suggest what action would be taken. While the cabinet today decided to leave the settlement of the strike to the department of labor it was regarded as more than likely that if the conference failed, the entire cabinet would consider the next course.

## Lewis Refuses to Comment

Indianapolis, Oct. 14.—John L. Lewis, acting president of the United Mine Workers of America, who returned to the union headquarters here today from the joint conference with the mine operators when it failed to reach an agreement at Philadelphia, said tonight he would consider the invitation of Secretary of Labor Wilson to meet him in Washington Thursday until tomorrow before making a reply. Meanwhile the work of drafting the order calling all bituminous coal miners to go on strike on November 1 was being continued at the union headquarters, it was said. While work on the strike order was continued it probably will not be made public for a day or two as it was stated that nothing would be given out until the order had been printed and mailed to the four thousand local unions in the country. A statement of the position of the miners was issued from the headquarters in which all blame for the crisis facing the country was placed upon the operators. The miners pointed out that the operators brushed aside all the demands of the miners like so much chaff and offered nothing in their stead except a renewal of the Washington agreement under which they are now working and which the miners declared they were forced to reject for the reason that it is impossible for the coal miners to make a living under the Washington agreement.

## CHARGED WITH BITING MANAGER'S EAR OFF

NEW YORK, Oct. 14.—Fred Welsh, once world's champion lightweight boxer and now a captain in the army, was arraigned in court today charged with biting off half his former manager's right ear "during an altercation." The manager, Harry Pollock, was confined to a hospital ward his counsel announced.

Welsh told the court he did not bite off his former manager's ear but that he simply knocked him down and a broken bottle on the floor of the scene of the "altercation" was responsible for Pollock's ear gashes.

"Your Honor, do I look as if I would bite a man's ear?" Welsh asked the magistrate.

"You certainly do not," the court replied, and then ordered Welsh held in \$1,000 for trial next Tuesday.

## INCREASE SALARY OF CHICAGO TEACHERS

Chicago, Oct. 14.—Increase in salary for all teachers in Chicago's public schools will be granted on a basis equivalent to the rise in prices it was announced today. The increase affecting 3,500 teachers, will become operative January 1.

## SHOES WILL BE CHEAPER NEXT YEAR.

NEW YORK, Oct. 14.—Footwear prices are due for a tumble—in fact they have dropped 20 per cent since the middle of August on a dare going to take still another drop after Christmas. J. Frank McElwain, president of the National Boot and Shoe Manufacturers' association, said in an address before the Middle States Wholesalers association here today. Mr. McElwain said the consumer should notice these declines beginning next April as the shoe now being manufactured will not be marketed until that time. He said a falling off in the demand from Europe partly was responsible for the reduction.

## President Has a Restless Day Grayson Reports

WASHINGTON, Oct. 14.—Due to an important but irritating new complication, President Wilson spent a restless and uncomfortable day, but his condition tonight was described by his personal physician Rear-Admiral Grayson as improved.

In the regular night bulletin on the president's condition, issued from the white house at 10 o'clock, Dr. Grayson said: "The president has had a restless and uncomfortable day but he is better tonight."

In connection with issuance of the bulletin, Dr. Grayson announced that Dr. H. A. Fowler, a Washington specialist, had been called in for consultation and thru his efforts it had been able to reduce the swelling of the prostate gland, which it was stated today had interfered with the rest of the president last night.

The new element entering into the president's illness, it was stated was of the non-operative type.

The general condition of Mr. Wilson again was described as favorable, Rear-Admiral Grayson, his personal physician and Doctors Stitt and Ruffin, the consulting physicians, noting in the daily bulletin that his temperature, pulse, respiration, heart action and blood pressure were normal.

While announcement that the president's rest was being interfered with by a swollen prostate gland, it was emphasized by Dr. Grayson that such was not uncommon and was of little importance save as it caused some discomfort.

Reports that congress might adjourn pending the president's recovery were met at the white house with the statement that such a step was absolutely unnecessary and would be opposed vigorously by the executive. I was reiterated today that the president's condition was such as to allow him to act in any important legislative matter that might demand his attention.

## Radicals Must Be Punished Or Country Will Fall

WASHINGTON, Oct. 14.—Warning that there is real danger that the government will fail if it continues its attitude of "supine inaction" toward the radical elements over the country was given today in the Senate by Senator Poinsette, Republican, Washington.

Referring to the propaganda circulated at Gary, Ind., urging steel workers to revolt and establish a dictatorship, Senator Poinsette said there was "ample proof of the revolutionary movement not only at Gary, but throughout the country."

Many of the strikes now in effect, he added, were called "in pursuance of the revolutionists' plan to strike down all government."

The Washington senator offered a resolution asking why the department of justice had not proceeded against the circulators of revolutionary propaganda, Senator Thomas, Democrat, Colorado questioned the need for the resolution. He said the steel strikers in his state had no grievance; that they were fighting for unionization of the steel industry.

Senator Poinsette, Democrat, Ohio, remarked that his information was that the strike leaders were holding out the inducement that the plants would soon be in the employees' hands as a means of getting the men to remain in the unions.

While the senate was discussing radicalism the house foreign affairs committee favorably reported a resolution extending for one year war time passport restrictions so as to exclude radicals and undesirable aliens; thousands of whom are waiting to come to this country, according to consular reports from abroad.

## \$200,000,000 INTENDED FOR VOCATIONAL TRAINING

Washington, Oct. 14.—Secretary Glass recommended to congress today an appropriation of \$200,000,000 to enable the federal board for vocational training to carry out the purposes of the vocational training act.

## BITTER FEELING IN SENATE DEBATE ON PEACE TREATY

Senators Reed and  
McCumber in Heated  
Argument.

## LODGE SUPPORTS AMENDMENT

WASHINGTON, Oct. 14.—Bitter feeling engendered by the peace treaty's Shantung provision of close to the boiling point again today in the senate.

Repeatedly during a five hour debate on the subject the gavel sounded to bring order out of a confusing fire of oratorical projectiles and once it was ruled that language used had violated the senate's rules by imputing to senators conduct unworthy and unbecoming.

The declaration to which formal objection was taken was made by Senator McCumber, Republican, North Dakota, in the course of a heated exchange with senator Reed, Democrat, Missouri and had to do with charges that Japan was acting in bad faith in the promise of her statement to return Shantung province to China.

"Japan was our associate in the war," said the North Dakota senator, "but I know that now the war has practically ended, many senators prefer to consider her as our enemy. Germany sent to us more an object of solicitude than our friends who helped us defeat Germany."

"If the senator means that," shouted Senator Reed, "I want him to name the senators to whom he refers."

Senator McCumber retorted that he would let recent utterances in the senate chamber speak for themselves and when he declined to yield to further questioning by Senator Reed the latter appealed to the chair, declaring loudly, while Senator McCumber continued his speech, that the language used had been unparliamentary.

When he had quieted the dissensions Senator Ball, Republican member of the foreign relations committee, in reply to Chairman Lodge of the committee who had not concluded a prepared address supporting the Shantung amendment and declaring Japan was building in China an empire menacing the United States, "Japan relentlessly had broken her pledges and would continue to do so in furtherance of her scheme for China's exploitation," Mr. Lodge asserted.

In reply Senator McCumber argued that the proposed amendment would be of no avail because Shantung already was in Japan's possession and altering the treaty would not change that possession. On the other hand, he said, the peace of nations would put a civilized world with a grip upon Japan's throat to compel her to make good her promises to restore the province to China.

## NEW ITALIAN AMBRASSADOR TO U. S.

Rome, Oct. 14.—Baron Romano Azevanzo is to be appointed Italian ambassador to the United States. The baron, who has been minister to Greece arrived in Rome today.

A despatch from Rome last Saturday said the Italian government had decided to send to Washington a new ambassador to take the place of Count V. Macchi de Cellere. Baron Azevanzo married an American girl, Miss J. Taylor of St. Louis.

Richard Yates, congressman at large, according to a dispatch from Washington, is to be a candidate for the governorship of Illinois if Governor Lowden does not seek re-election. The time was when Congressman Yates had a very strong showing all over Illinois. His candidacy will add interest to the state political situation.

In a reference yesterday to a

bill introduced in congress by Representative Rainey, purporting to put an end to war-time prohibition, it should have been made clear that the congressman referred to is Representative Rainey of Chicago. This congressman has the same name but not the same initials as the representative from this, the twentieth congressional district, Henry T. Rainey, who represents this district, has all along given his support to the dry measures that have come before congress.

Maine, by an overwhelming vote, recently endorsed the proposal to raise the bonded indebtedness of state highways from \$2,000,000 to \$10,000,000, giving an additional \$8,000,000 to be spent on the state road system. This is one of the instances showing a country-wide movement for better highways, as reported to the United States department of agriculture, which administers the federal aid road act.

Milk is absolutely necessary to keep the growing child in health. It contains growth-producing substances not found in any other food. The dairy division of the department of agriculture is endeavoring to drive this lesson home to the people in every state by means of charts, lectures, and exhibits. The home-demonstration agents, supervised by the department of agriculture and state colleges, are also teaching the

value of milk in a child's diet and how to select a proper meal for a growing boy or girl. Children who have been given even one pint of milk every school day for two months have made remarkable gains in every instance.

A timely warning note has been sent from the U. S. senate to the miners of the country who are threatening to strike Nov. 1. The miners during the war entered into a contract which is binding until March of 1920. The government was a party to that contract and the miners are warned that a strike in November will mean that they have the federal government to settle with. It is presumed that it is a certain radical element in the miners organization which has made such impossible demands upon the operators and has threatened a strike if the demands are not granted. With such a decided shortage in coal production already existing, a strike in November would be nothing short of criminal. It is well indeed that the government is taking a hand in advance.

A conference of representatives of the cotton industry is to be held in New Orleans this week. It is said that representatives of twenty-five countries interested in the production and distribution of cotton will attend. The purpose of the conference is said to be to develop matters of mutual interest to cotton growers and manufacturers.

Let us hope at least that as a result of the conference that they "revise the schedule" downward. The present price of raw cotton is such that the manufactured article costs at least three times as much as it used to under normal conditions. It sounds like a joke now to recall the campaign which was staged just a few years ago for selling cotton. Communities everywhere were then urged to buy one or more bales of cotton for sale during the month of December by the National Tuberculosis association and its 1,000 affiliated organizations. The "health bonds" are a new departure in health campaigns and it is expected they will be sold freely.

The "health bonds" are to be used as substitutes for seals in cases where subscribers do not care to accept the number of seals, at one penny each, equal to the amount of their subscription. That is, if a person wishes to buy \$50 worth of seals but does not care to take 5,000 of them, he can buy a "health bond" instead. This is the first year that "health bonds" have been sold. The plan was adopted because the campaign, which embodies the greatest health education drive the country has ever known, has awakened the country to the need of good health, and it was felt that there should be a substitute offered for large seal purchases.

DISPROVE OR CORRECT CONDITIONS  
The statements made last night by Miss Anne Hinrichsen, executive secretary of the state welfare commission, before the Social Service league, are such as demand the attention of the people of this county. Miss Hinrichsen declared that her statements were made after a complete investigation of the records on file at the court house. This representative of the state says that the charity work of Morgan county costs more on a per capita basis than that in any other county in the state.

The further statement is made that the conditions at the county home are unworthy of this county. It is a matter of common record that year after year certain physical improvements have been suggested at the county home, and not made. So far as the condition within the building, there has been no previous record for bringing the matter to public attention.

PROBLEMS  
Some mighty problems now confront us, there is a crisis every day; one problem canned, some others hunt us, and take the joy of life away. The times are grave; I hear my neighbors denouncing things; they rant and roar; they have suspended all their labors to argue at the Blue Front store. I do not join them in their ranting, their crisis rags I do not chew; all day they see me gallivanting on useful errands fro and to. The times are grave; we make them graver by quitting work to paw the ground, even the spools we make may savor of wisdom widespread and profound. I let the problems go to thunder; we are with statesmen well supplied, who tear the juncrow things asunder, to see what works they have inside. And all the day I'm toiling, busy, I'm banking up my humble shack, to keep my cherished spuds from spoiling when come the wintry storm and rack. There's too much talk and too much twaddle, there's too much piffle, wind and bunk; and while my neighbors rant and dawdle, I'm salting down another plunk. There's too much idle, bootless drooling, too much of larynx and of lip; when all the fellows quit their fooling the problems will get up and skip.

PLAN FOR JEWISH WELFARE CAMPAIGN

Executive Committee Meets Tuesday Evening—Preparing for County-Wide Drive for Funds.

The executive committee for the Jewish welfare campaign met last night. Henry Frisch, who is chairman of the committee, presided and there was a full attendance of the membership. The preparations for the county-wide campaign will begin at once. Charles E. Graf is the vice chairman and other officers have also been named.

It is the expectation that the various precincts of the county will take part in the campaign and assist in the collection of the county allotment of \$18,000. It is the intention of the members of the executive committee to go personally into the various county precincts and there to confer with workers. The state allotment is \$3,000,000 and one-half of this sum is to be raised outside of Chicago. Authenticated reports received from Russia, Rumania, and Poland show the most pitiful conditions existing and the absolute need of funds to provide food and clothing for the millions of starving Jews.

ENJOYED PLANE RIDE

Among those who rode in the airplane yesterday was E. E. DeFries, the grocery man of East Independence Avenue. Mr. DeFries considers the money well spent and thoroughly enjoyed his trip over the city. The aviator and his passenger circled over Illinois College, over North Main street, out over the car shops and back to the old driving grounds.

AGED WAVERLY RESIDENTS DIE

Death of Mrs. Emily J. Batty Came at Early Hour Tuesday—Final Summons Came for N. F. Hughes Monday—Both Were Long Time Residents of Waverly.

Waverly, Oct. 14.—The death of Mrs. Emily Jane Batty, a long time resident of Waverly, occurred Tuesday morning at 4:50 o'clock and was due to the infirmities of old age. The deceased was born in Williamsborough, North Carolina, Sept. 23, 1823, and was thus past ninety six years of age. In 1830 with her parents she removed to Napoleon, Ky. Twelve years later the family removed to Illinois and settled near Island Grove, and it was at that place that the deceased was married to J. D. Batty in the year 1865.

In 1868 Mr. and Mrs. Batty removed to Berlin where they made their home until 1882, when they came to Waverly and where the deceased has since made her home. Mr. Batty's death occurred Sept. 26, 1902. Five children were born to the union: Mrs. James Dennis, Waverly; Edwin H. Decatur; Miss Sarah Batty, living at home; George R. Batty, whose death occurred in 1893, and Augustus G. Batty, who died in 1915.

In early life Mrs. Batty was converted and united with the Baptist church. At the time she was baptized there were seventy five other persons for whom the same rite was performed. During all the years of her life Mrs. Batty was a consistent Christian and was a woman of many fine traits of character. She had retained all her faculties to a remarkable degree and her memory was especially wonderful. It was only a short time ago that Mrs. Batty celebrated her ninety-sixth birthday anniversary and she was able on that day to greet her friends and greatly enjoy the quiet celebration which was held in honor of the occasion.

The deceased is survived also by one sister, Mrs. Edwin Batty, who celebrated her ninety-first birthday anniversary last Friday, October 10.

Funeral services will be held Thursday afternoon at 2:30 o'clock at the family home, in charge of Rev. J. W. Campbell, pastor of the Baptist church. Interment will be made in East cemetery.

N. F. Hughes.  
N. F. Hughes, for many years a resident of Waverly, passed away at his home Monday morning at 5 o'clock following a brief illness. Deceased is survived by his widow and nine children, seven sons and two daughters. Funeral services will be held at 2 o'clock Wednesday afternoon from the First M. E. church, Rev. F. E. Smith, the pastor, in charge. Burial will be in East cemetery.

## A Trust Company

That is, an incorporated corporation, chartered to do a trust and banking business and supervised by the State Banking Department, which exists in perpetuity, being subject to none of the limitations which hamper the efficiency of the individual trustee. The fact that it is a company gives its clients the benefit not only of its permanence, but also of the combined or collective integrity, ability and experience of the group of men who direct its affairs and do its work. Trusts committed to its care have the advantage of banking and investment service, not ordinarily at the command of an individual.

The Farmers State Bank and Trust Company acts as Executor, Trustee, Administrator, Conservator, Guardian, Agent, etc., handles these trusts promptly and efficiently, is always accessible and ready for business, assures absolute safety, and for this service its fees cannot be larger than those allowed an individual, in fact it renders a maximum service for a minimum fee.

### VISITS CITY AFTER FIFTY YEAR ABSENCE

John Alves, Youngest Member of Oldest U. S. Family Visits Jacksonville—Born on Island of Madeira in 1840.

John Alves of Salt Lake City, Utah, the youngest member of the family whose ages average older than any other family in the United States, is visiting his brother Manuel Alves, northwest of Jacksonville, after an absence from this city of over fifty years.

Mr. Alves stated yesterday afternoon that it has been just fifty-four years since he visited Jacksonville, having been a resident of western states for many years. He comes to this city from Springfield where he visited with his sister, Mrs. Mary A. Smith, the oldest member of the family. The average age of the five living children is 90 years.

Mr. Alves will celebrate his 80th birthday on the 11th of March, and his sister, Mrs. Smith, is nearly 108 years old. She lives with her daughter, Mrs. Kate Franks.

Commenting upon Mr. Alves' visit in Springfield the State Journal carried the following article a few days ago:

In 1840 John Alves was born on the Island of Madeira. His parents were staunch in the faith of the Presbyterian church, and due to his mother's faith in her religion and belief she was cruelly persecuted. In 1843 she was sentenced to prison because of her steadfastness to her creed. She was charged with aspostasy, heresy and blasphemy. After several years' imprisonment she was condemned to a public death.

John Alves' mother, Mrs. Maria Louguina Alves, from such a death, an effort finally succeeded in bringing about her pardon by Queen Donna Marie.

When John Alves was nine years old he and his brothers and sisters came to New York with their parents. They came west, settling at Jacksonville. Mrs. Alves died when she was sixty years old and her husband died within a month of her death.

Served in Civil War.

John Alves was still a resident of Jacksonville when he enlisted in the federal forces of the Republic. He modestly declares that his five wounds received during service were but slight ones, and that his service rendered was meager. He fought in many important battles of the Civil war, serving in the Fourteenth Illinois infantry, of General Palmer's regiment, Fort Donaldson, Vicksburg, Lookout Mountain and Chattanooga, were among the battles in which he went forward.

At the close of the Civil war, in 1865, Mr. Alves went west, settling in Utah, where he has lived ever since. He is now retired in his business affairs, after an active life at farming and raising stock. He also has mining interests.

It is with varied emotions that this old settler again visits the towns and the loved ones of his youth, after more than a half century's separation from them.

Recalls Lincoln-Douglas Debates.

"Why I have nieces and nephews and grand nieces and great-grand nieces and nephews that I had not even heard of before," he said after being in the city a short time. "I haven't seen my sister Mary for sixty years, and it has been fiftythree years since I last saw my other brothers and sisters. There are a great number of landmarks that are familiar to me in Springfield. I used to visit at Abraham Lincoln's home over southeast of the state house, when that gentleman lived in Springfield. And I recall distinctly the lively debates between Lincoln and Douglas."

Mr. Alves married Miss Mary A. Ray in 1869, and in 1892 she died. Before returning to Utah Mr. Alves will visit his brothers, J. J. Alves, at Farmingdale; Manuel Alves, who resides five miles northwest of Jacksonville, and his sister, Mrs. L. Figueroa of Brooklyn, N. Y.

Mrs. Smith, the oldest living member of the family, has five children living, the oldest of which is 81 and the youngest 64. They are Samuel Smith, 81 years, Springfield; Jacob Smith, 79 years, Springfield; Nicholas Smith, 67 years, Springfield; David Smith, 66 years, Dawson, and Mrs. Katherine Franks, 64 years, Springfield. She also has twenty-seven grandchildren, fifty great grandchildren and five great-great-grandchildren.

## A man's life—among men!

Reel them off—"Rio," Gibraltar, Ceylon, Yokohama—all the great ports of the world—are they only places on the map to you—or are they ports where you've gone sailing in from the high seas with every eye along the shore turned admiringly on your big ship—your ship! Every ocean has a United States ship sailing for some port worth seeing.

If you've any call in you for a full life—join, and color all your years ahead with memories of things worth seeing—with knowledge worth having—with an inexhaustible fund of sea tales and adventures picked up ashore and

afloat that will make you a welcome man in any company.

Work?—sure, and a man's work it is, among men.

Play?—well, rather, with a bunch of men who know how to play. These comrades of yours carry in their ears the sounds of great world cities, of booming guns, of swashing seas—sounds you will share with them and that will never die away.

And when you come home, you'll face life ashore with level eyes—for Uncle Sam trains in self-reliance as well as self-respect. The Navy builds straight men—no mollycoddles.

Enlist for two years. Excellent opportunities for advancement. Four weeks holidays with pay each year. Shore leave to see inland sights at ports visited. Men always learning. Good food and first uniform outfit free. Pay begins the day you enlist. Get full information from your nearest recruiting station. If you do not know where the nearest recruiting station is, ask your Postmaster. He knows.

## Gasoline Automobiles Made Into "Steamers"

That's the latest in the motor car world, and dozens of car owners are revealing an unusual interest in Joy Brother's Garage to find out how it is accomplished.

"They come in smoking from wasted gasoline and wasted lubricants and go out steaming with efficiency," Mr. Joy asserted. "We actually put steam into the gasoline and really make gas cars into steamers."

Mr. Joy, who is technically trained in engineering, had long known the necessity of getting moisture into the automobile engine. He searched the country for something to do this properly, and finally found it. The process is made possible for owners by the Automatic Carburetor, for which the garage has the exclusive agency here. Owners of cars assure the automobile expert the carburetor does more than he claims for it.

"The steam carburetor, for which automobile experts have labored for years, gives the automobile continuously the effects which the owner notes now on a rainy day," Mr. Joy said. "It puts live steam into the gasoline vapor. The steam, as automobile men know, eliminates carbon completely and keeps it

out of the motor. In addition it increases the mileage from the fuel by 30 per cent and increases the power of the motor 10 per cent. Cars that have trouble climbing hills now will fairly scoot over them when the steam is put in as this carburetor puts it in.

"This carburetor, which does not replace the regular carburetor, but operates with it, is one of the greatest advances in engineering the automobile world has produced in years. Every owner who has seen it in operation has wanted one. I am getting them for Jacksonville owners as fast as the factory can supply me with them and owners find the carburetor surpasses anything they anticipated it would do. It is a remarkable efficiency maker for any automobile."

Mrs. Curry Entertains

Mrs. A. A. Curry entertained at her home in Pisgah Tuesday evening in honor of her guest, Mrs. Ella Wood of St. Louis, who is to be married next Saturday in Cleveland, Ohio, to Mr. George Davis. Mr. Davis is associated with the Cleveland Mazda Lamp company and is one of the prominent business men of the Ohio metropolis. Mrs. Wood is a daughter of Mr. and Mrs. Richard Coulas of Riggsport and is well known in this vicinity. At seven o'clock the guests present were served with a delicious dinner and during the evening that followed thoroughly enjoyed the time with games and music. Among those present were Mr. and Mrs. George Hardwick of Merritt, Mr. and Mrs. Arthur Wood, Mrs. Wood, Mrs. Charles Wood and son Leonard, Mr. and Mrs. A. E. Curry and Misses Helen and Betty Ann Wood.

Mrs. Harry Hart Hostess To Missionary Society.

Mrs. Harry Hart was hostess to the Young Woman's Foreign Missionary society at her home, 809 South Main street Tuesday evening. There was a large attendance of members and the meeting proved a most interesting one. Mrs. Hart was assisted in entertaining by Mrs. Homer Rowland and Mrs. J. F. Kitchner.

The Devotions were in charge of Miss Flossie Kellogg. Mrs. E. L. Fletcher gave a report of the church meeting at Decatur. The report was an excellent one and greatly enjoyed by the members. Five new members were taken into the society. They are: Mrs. D. V. Goudy, Miss May Omer, Miss Naomi Wetzel, Miss Esther Wetzel, Miss Grace Rapp and Miss Ruth Rapp.

Miss Flossie Kellogg with Miss Myrtle Larimore as accompanist, gave a vocal number. A social hour followed the program and refreshments were served.

Orleans Woman's Country Club Met With Mrs. Tindall.

The Orleans Woman's Country club met with Mrs. Edward Tindall Tuesday afternoon with a good attendance of members and several guests. The club decided to hold its annual open meeting at the home of Mrs. George Holley November 5. The following committees were appointed to make arrangements for the meeting: Domestic—Miss Matilda Richardson, Mrs. Fannie Stewart, Mrs. Mary Cunningham, Mrs. Charles M. Strawn.

Program—Mrs. Hulett, Mrs. Clyde Cox and Miss Florence Cox. Music was furnished by a Victrola.

Mrs. Frank Drury presented an interesting paper on the subject, "The Economic Relation of Streams." Mr. Cunningham gave a paper on "Pigeons for Government Service." The subject was ably handled and heard with close attention. A social hour followed the program and refreshments were served. The next meeting will be held with

Expression Recital at the Conservatory.

The first recital of the season in the Conservatory was given last evening in Recital Hall by Miss Lucille Bennett, a student of Expression under Mrs. P. C. Thompson. Miss Bennett was assisted by Miss Helene Sorrells, violinist, who was accompanied by her teacher, Mr. Kitch. The program was opened by Miss Sorrells, who played four violin numbers, varied in style and delivered with skill and musical insight. She has made great strides in her technique in the past few years, and this sureness and facility, added to an unusual natural talent, makes her playing always a pleasure to listen to. She was heartily applauded by the large audience.

Miss Bennett chose as her offering for the evening a play by Lady Gregory, of humorous character, entitled "Spreading the News." This amusing drama has ten characters, each of whom the reader brought vividly before her hearers, differentiating skilfully the special traits of all, as has Lady Gregory in the text. Miss Bennett has a clear, resonant voice and a good stage presence, also considerable self-possession, so that one feels justified in predicting for her a bright future in dramatic work. Her performance was given every sign of high appreciation by her auditors, who compelled her to bow her acknowledgement of their enthusiastic applause.

Teachers Meeting Held at School for Deaf.

The first monthly meeting of the Teachers association was held at the State School for the Deaf Tuesday afternoon at the library. Routine business was transacted and subsequently an election of officers was held, with the following result:

President—Miss Amelia De Motte.

Vice president—Miss Carolyn G. Taft.

Secretary—W. S. Camp.

The association passed a resolution of thanks, expressing appreciation of the assistance given by State Auditor Andrew Russell and Representative Jacob Frisch in securing back pay due the teachers.

Mrs. Jefferson Observes Eighty-Eighth Birthday.

Mrs. Olive Jefferson celebrated her eighty-eighth birthday at the home of her son, James Jefferson, near Pisgah Tuesday. Children and grandchildren gathered at the home, bringing well-filled baskets and aided in the observance of the occasion by their presence and congratulations. Mrs. Jefferson received a number of tokens of remembrance.

Pastor's Aid Society Met.

The Pastor's Aid society of Grace church met at the church Tuesday afternoon. The ladies voted to furnish a room at Passavant hospital.

State Street Church Missionary Society Meets.

The missionary society of State Street church met Tuesday afternoon with Miss Goebel on South Main street. Mrs. Lanning was the leader of the program with "The Jubilee" for the subject. Mrs. Marbach, Miss Cunningham and Mrs. King also had interesting parts on the program. The subject proved one of great interest and was ably handled. The study class selected the book recommended by the general assembly and an all day meeting will be held with the leaders to present the different chapters.

Mr. and Mrs. E. E. Hart have returned from Peoria where they have been to attend the funeral of Mrs. Nae Cline, aunt of Mrs. Hart.

### PLANS TO STABILIZE FOREIGN EXCHANGE

NEW YORK, Oct. 13.—Establishment of an "international currency" and the guarantee by the American banks of foreign railroad and industrial securities to encourage their purchase in the United States both with the view of stabilizing foreign exchange, are two of the important topics it was announced here today that will be discussed at the international trade conference in Atlantic City next week. The conference will be attended by representatives of the United States, France, Great Britain, Italy and Belgium.

Preliminary conferences were held today by officials of the chamber of commerce of the United States and the chairmen of the four foreign delegations, Sir Arthur Shirley Beem, M. P., for the British; Eugene Schneider, head of the Creusot works, the "steel" king of France; Florimonde Hankar, of Brussels, director of the National Bank of Belgium and Foreign Quarter, former head of the Italian delegation to the inter-allied munitions council.

An executive committee headed by A. C. Bedford, chairman of the board of directors of the Standard Oil company for months has been engaged, it was said, in preparing data for the visitors as to what America can do toward the financial and commercial reconstruction of the allied nations.

Ten main topics will be discussed as follows: Credit and finance, chemicals, foodstuffs, coal, oil, metals, shipping, textiles, reconstruction supplies and permanent organization.

### 'FRISCO GIVES BELGIANS A ROYAL WELCOME

SAN FRANCISCO, Oct. 14.—(By The Associated Press.)—Belgian royalty entered San Francisco today and the city took them to its heart with true western hospitality. They were greeted with the ceremony due reigning monarchs but beneath the formalities they must have felt the ungrudging admiration bestowed upon a heroic soldier and his devoted queen.

The guests of the New Mexico, flagship of the Pacific Fleet, boomed a salute as they crossed the bay from Oakland and Kin Albert dined tonight on the super-dreadnaught. The king entered here upon the second phase of his tour of the United States. He made the most earnest plea he has voiced thus far for his stricken country.

"Her determination to live causes her to strain every effort," he said. "She asks the sympathy and help of those powerful friends who already have aided her in her misfortunes."

With simple dignity his majesty to the welcome given him by Governor Stevens, Mayor Rolph and Herbert Hoover.

### DISCUSS BETTERMENT OF RAILWAY SYSTEMS

INDIANAPOLIS, Ind., Oct. 14.—General discussion as to what could be done for the betterment of the street railway system at all over the United States and at the same time been down the fare rate occupied the national association of railways and utilities commissioners on the first day of its session here.

Since always had been given authority to increase their fares in nearly every large city in the country it was pointed out but still conditions were not satisfactory. Public service commissions were urged not to accept street railway company's figures but to make their own investigations with their own engineers and accountants and that manner reach a conclusion as to what fare should be charged Paul Haynes, an Indiana public service commissioner said. To this action, he attributed the five cent fare charged in Indianapolis.

### HOLD UP PUBLIC POLICY QUESTIONS

SPRINGFIELD, Ill., Oct. 14.—Certification of "public policy" questions of the Illinois Initiative and Referendum League to county clerks by Secretary of State Louis L. Emmerson for a vote at the election, November 4th, was held up here late today.

The certification was halted by the notice of attorneys for the enemies of the question to Attorney General Brundage that they will file an appeal in the Illinois supreme court tomorrow morning under section 21, chapter 69, of the injunction act asking that a vote on the questions be prevented.

Under provisions of the act when notice is given to the attorney general that an appeal will be taken from a court order dissolving an injunction to keep questions from the ballots, the secretary of state is compelled to hold up certification or the questions pending action on the appeal.

Attorneys for Edward F. Payne, who was granted the original injunction against the questions determined to file the appeal, after Judge E. S. Smith last night dissolved the injunction. Permit to file the appeal was granted by Judge Smith, following the dissolution order.

John Hopper Injured When Truck Turns Turtle—Brother of Mrs. Charles Minter and Mrs. Andrew Leck.

Word has been received here of the serious injury of John Hopper in East St. Louis. Mr. Hopper is proprietor of the Hopper Packing company and was injured when a truck in which he was riding turned turtle.

It was at first feared that Mr. Hopper's injuries would prove fatal but later reports were to the effect that he probably would recover.

Mr. Hopper is a son of the late John Hopper and a brother of Mrs. Charles Minter and Mrs. Andrew Leck. He resided here until a few years ago when he removed to East St. Louis where he engaged in business. Mrs. Minter was visiting at her brother's home in East St. Louis at the time of the accident and is still at his bedside.

Miss Mildred Turner of Greenville is visiting friends in Jacksonville.

## FLAMES SWEEP GREENE COUNTY TOWN TUESDAY

Village of Drake, an Important Shipping Point on C. & A. R.—Suffers Costly Fire—Elevator, Store and Two Freight Cars Destroyed—Loss Over \$25,000.

White Hall, Ill., Oct. 14.—The hamlet of Drake, an important shipping point on the Chicago & Alton, five miles northwest of White Hall, was on the verge of being wiped out by a fire discovered about 9 o'clock this morning at the top of the elevator, opposite the railroad station. The elevator, a store and two freight cars, one of which was loaded with wheat, were destroyed, entailing a loss of over \$25,000, and the flames had communicated to three dwelling houses, an automobile and a car loaded with lime, but were extinguished before any calculable damage was done.

The origin of the fire is unknown. It was discovered by Rudolph Hicks, the railroad agent, and had gained such headway that all efforts were centered on saving adjoining property. The elevator was owned by the Drake Farmers Grain and Supply Co., and luckily there was only a car and a half of grain, about 1,500 bushels, in storage, which was destroyed, together with a quantity of feed and salt, the contents being valued at \$6,000, while the value of the elevator is fixed at \$15,000. There is insurance of \$8,000 on building and the contents are fully covered.

A locomotive was pressed into service to save a string of freight cars on the elevator siding, but not until the refrigerator car and a box car, the latter loaded with wheat to capacity, 80,000 pounds, were destroyed. The general store of Joseph Schutz was destroyed, entailing a loss of \$2,000 on contents and \$1,000 on building, the building being owned by Charles Coats. Very little of the contents was saved.

The Drake Farmers' Grain and Supply Co., was organized in 1915, taking over the Drake elevator from Earl Hicks at a predetermined figure of \$6,000. Several thousand dollars were spent on improvements, and it is estimated that \$15,000 will be required to replace it. It had a storage capacity of 10,000 bushels of wheat. The company comprises sixty-two stockholders, mostly farmers of the neighborhood and White Hall. The officers are L. G. Griswold, president; P. C. Griswold, secretary, and Elmer Griswold, treasurer, all of White Hall. Robert Hicks is the manager. Directors are W. L. Doyle, C. E. Potts and Earl Hicks. The elevator handled about 50,000 bushels of wheat this season, besides a business in feed, salt and coal. There is already talk of rebuilding, and Manager Hicks will go ahead with the feed and fuel business in an improvised building.

Twelve thousand dollars in drafts were the only things saved from the elevator by Manager Hicks after he discovered the fire. He had been in the elevator earlier in the morning. Drake ranks next to Hillview in the shipment of apples from the great Greene county apple producing section, and the fall harvest is now being brought to a close. A special track is provided for apple loading, and this work was not disturbed by the fire, but telegraph and telephone service was interrupted nearly all morning. In years past a high grade of clay has been mined at Drake on an extensive scale and shipped to all parts of the country.

Harold P. Joy of Chapin precinct spent Tuesday here on business.

## GOING LIGHT WITH LIVESTOCK NOW

F. E. Drury and Other Feeders Uncertain What Will Happen to Cattle and Hog Prices.

Frank E. Drury of Orleans neighborhood was a visitor in Jacksonville, Tuesday. Ordinarily at this time of year Mr. Drury has a large amount of livestock on his farm. He is a consistent cattle feeder and frequently has as many as 1,000 hogs on feed.

Asked yesterday about the livestock on his farm, he said: "I am not feeding any cattle at present and have very few hogs. In fact, I sold off a considerable number of my sows. About all that I have is a few sheep and I am keeping them to help get away with the weeds. Men in the markets tell me that the feeders of experience are for the most part staying 'out of the game' just at present and for the very good reason that they do not know just what to expect."

"I sold off my livestock to a very close point some weeks ago. Anybody who has followed the markets knows about the declines that have been both rapid and steady in these past weeks. In fact, for several months the markets have been going down. It is because of these conditions that livestock men are 'fighting shy' of feeding just now and they want to get some better line on the future before carrying on operations of any special size."

"I was in the Kansas City stock yards two weeks ago and met there a man who deals extensively in cattle. He could not market the cattle he has without taking a loss of about \$50 a head. He had determined with the advice of the bankers who finance him to carry the cattle over, hoping for an upward tendency in market conditions. A cattleman who has been feeding corn of course cannot follow such a course, as that would mean a far greater increase in the cost of the cattle which could not possibly be overcome by any market increase. The men who feed in the west and who sell cattle off the grass can follow this plan and so take a chance on future conditions and look forward hopefully to a time when the market may go higher."

## Deaths

Dwight.  
The death of Mrs. John Dwight occurred Monday afternoon at the Dwight summer home at Falmouth, Mass. The deceased was a daughter of the late Mr. and Mrs. J. O. King and her home was formerly in this city. Mrs. Dwight before her marriage was Miss Emma Mabel King and she was born in this city March 10, 1845, and the family home was for many years on West College avenue.

The full particulars about Mrs. Dwight's death have not been received, but the general facts came in a telegram from Miss Mabel M. King of Chicago, a niece of the deceased. It is expected that the funeral service will be held in New York City. Mrs. Dwight is survived by her husband, one son, John E. Dwight Jr., and two daughters, Mrs. N. J. Bussey Jr. and Mrs. Albert E. McVitty. She leaves also one brother, William M. King, long a resident of New York City. The older residents of Jacksonville will remember Mrs. Dwight as a woman of great refinement, generous education and spirit.

Vasconcellos.  
Word was received in the city yesterday of the sudden death of John B. Vasconcellos of Galesburg which occurred at Quincy Monday morning.

Mr. Vasconcellos was born in Jacksonville May 12, 1852, and was the son of Emmanuel and Ida Vasconcellos. He left this city early in life and became an employee of the Burlington railroad. He was associated with this railroad company for more than fifty years. After leaving Jacksonville he was employed as conductor on the main line between Rock Island and St. Louis for a number of years. During later years he has been given preferred runs, so that he could spend a part of his time at home. He has been serving as passenger conductor between Galesburg and Quincy, residing in Galesburg.

Monday morning his train was ready to start on its regular run to Galesburg and Mr. Vasconcellos was standing nearby on the station platform when he was stricken. He was taken into the railroad office where medical aid was summoned but he died within ten minutes.

Mr. Vasconcellos was a man who stood high in his chosen work. He was well known among railroad men, especially in the western part of the state and his manner and sound judgment made him popular with his associates and employers.

He is survived by his widow, one son Lawrence of Galesburg and one daughter, Mrs. Beo Smith of Detroit. He is also survived by the following brothers and sisters: Mrs. Julia B. Goveia of Springfield, Mrs. Mary Martin of Jacksonville, and William Vasconcellos of Chicago.

Arrangements for the funeral will be announced later.

## ANOTHER AIRPLANE TO VISIT JACKSONVILLE

Plane Owned by Investment Brokers Will Reach City, Latter Part of Week.

Strawn-Ratliffe Co., 223 West State street, representing W. S. Phillips Co., investment brokers of Chicago, are in receipt of a wire stating that the company's aeroplane, in charge of Lieutenant Cooper, will be in Jacksonville the latter part of this week the exact date to be advertised later. The plane is a Curtiss "H" type, war speed model, equipped with a Hispano-Suiza motor. It has been arranged to use the ground just west of the old Jacksonville Driving Park as a landing place.

Lieutenant Cooper is an experienced pilot having been in service overseas. Messrs. Strawn and Ratcliffe stated Tuesday that it is the company's intention to give as many of the Central Oil Shale Company stockholders a ride in the air as possible during Lieutenant Cooper's visit. The plane was purchased primarily for the purpose of taking officers of the company and investors to the company's properties in the south and west.

## CHANGES FOR LOCAL TELEGRAPH OFFICE

Western Union Plans Expenditure of \$10,000 in Jacksonville on Improvements to Property.

Extensive changes and repairs will soon be under way in this city by the Western Union Telegraph company.

Yesterday E. C. Bowles of Chicago, erecting engineer for the company, arrived in Jacksonville. He will have charge of the work to be done here. Within a few days more of the experts of the concern will be in Jacksonville to begin the actual work.

There will be four employees added to the local office and a twenty-four hour plant service will be established. A chief operator and three repeater men will be sent to the local office. The chief operator will have charge of the plant department and Manager J. L. Pine will continue in charge of the commercial department.

One of the changes to be made will be the changing of the cable system between the Western Union office and the Wabash station. This cable will be replaced with new cable and located underground.

# SERIOUS CHARGES MADE AGAINST THE COUNTY

## MISS HINRICHSSEN POINTS TO GROSS EXTRAVAGANCE

**Executive Secretary of Welfare Commission Says Conditions at County Home Are Bad—Appropriation Figures Quoted—Story Told at Social Service Meeting—Dependent Children the County's Greatest Problem.**

The annual meeting of the Social Service league of Jacksonville was held at the First Baptist church Tuesday evening. The general program and the business session followed the serving of an excellent supper by the women of the Baptist church. H. A. Perrin, president of the league, presided. Mrs. M. H. Havenhill, secretary read the minutes and also read the report of A. C. Rice, treasurer. Addresses were made by Judge Paul Samuell and by Miss Anne Hinrichsen, executive secretary of the state welfare commission.

Mr. Perrin as president spoke in a very brief way of the work of the league and of some of the duties that now press. The annual meeting of the Social Service league of Jacksonville was held at the First Baptist church Tuesday evening. The general program and the business session followed the serving of an excellent supper by the women of the Baptist church. H. A. Perrin, president of the league, presided. Mrs. M. H. Havenhill, secretary read the minutes and also read the report of A. C. Rice, treasurer. Addresses were made by Judge Paul Samuell and by Miss Anne Hinrichsen, executive secretary of the state welfare commission.

Miss Hinrichsen's address included statements that reflect greatly upon Morgan county's method of handling the county arm and its charity affairs. Miss Hinrichsen characterized the Morgan county farm as the most expensive in the state on a per capita basis, and declared that conditions are very bad at the institution. The speaker read from the records of the county board to show that the appropriation for the county home this year is \$15,000 and that this money will be expended in addition to the returns from the high class 200 acre farm on which the county home is maintained.

Judge Samuell talked about the relationship between the juvenile court and the work of the Social Service league. The speaker outlined some of the functions of the county court in dealing with delinquent, dependent and neglected children.

**Many Children's Cases.**  
There were few in the large company present who realized that so many children's cases come to the attention of the Morgan county court. Judge Samuell spoke with great earnestness and it was very clear that he feels greatly the responsibility he has in dealing with the numerous children's cases that come before his court. He explained some of the ways that the public and the Social Service league can be of valuable assistance in improving conditions and in lessening the number of children's cases that come before the county court.

Miss Hinrichsen began her address by referring in a very pleasant way to this as her home city and said that while she was proud of Jacksonville and Morgan county, that there were some things here in connection with welfare work that certainly needed the light of publicity. The speaker made it clear that she did not talk about Morgan county's delinquencies in this regard elsewhere, but came back here to tell the home people about the unsatisfactory conditions.

**Records Are Quoted.**  
Miss Hinrichsen said that her statements could all be verified from the records of the county board and that she had gone over these records very carefully. The speaker referred to pioneer work done by Jacksonville in the formation of a social service league and went on to say that the work of this league might profitably be extended to work in conjunction with the overseer of the poor. She said that the county board was always willing to provide generously for the care of those persons

needing charity, but that by working together the league could be of great benefit to the board and the overseer of the poor in determining the home conditions of those receiving charity.

**Dependent Children.**  
"You may not know it," said Miss Hinrichsen, "but the facts are that Morgan county has 220 of its residents in state institutions. Of this number 145 are in insane hospitals. The county's quota in Chester penitentiary is one of the largest in the state on the per capita basis. The county has turned over to the Illinois Children's Home and Aid society 110 children. Therein lies one of the greatest needs of this county—some method of taking care of your dependent children here at home instead of turning over the responsibility to a society located elsewhere. There isn't much chance of changing or reforming mature dependents, but when children are handled properly there is a chance. Morgan county spends a vast sum on its charity work, twice as much as should be the case. The amount spent in this county for all classes of charity work is the greatest in the state on a per capita basis.

**Heavy Appropriations.**  
"Your appropriation this year, including the laudable fund for tuberculosis sanatorium, will run about \$90,000. This includes \$26,000 for distributive charity, what is known as the 'pauper account.' Then there is \$15,000 for the almshouses. This means that the huge sum of \$15,000 is to be spent at the county home in addition to the funds that come from the farm itself. That home should be self-sustaining. With a \$15,000 appropriation and the home properly managed there should be trained nurses and fine surroundings for the inmates of the home. Instead you have men and women kept at that home in filth and rags. I have seen the home under at least five superintendents.

**Bad Conditions.**  
"I have visited at least 200 almshouses in this and other states since my connection with the work. I have found none where the conditions were worse than they are here in Morgan county. There is no running water in the quarters where these poor people are kept. There are no lights except from coal oil lamps. There is no fire protection. There are ten employees on the pay roll in addition to the county physician. The bills on file show the finest kind of supplies, nuts and fruits and excellent clothing, yet the men and women inmates are poorly clad and the room they inhabit are vermin infested. The reason for this condition is largely due to the fact that so few people visit the home. I doubt if as many as five of this company have ever inspected the Morgan county home."

**Too Much Politics.**  
Talking further about finances, Miss Hinrichsen asserted that bills from physicians for work done for charity patients run to \$10,000 a year in addition to the salary of the county physician. Miss Hinrichsen commended the mothers' pension plan as operated in this county and spoke of the earnestness of the work done by Judge Samuell in the juvenile court. She said that what is needed here most of all in charity work is to take the county home out of politics, that no superintendent should be appointed because he belongs to one party or another. She declared that it was the duty of the county board and the duty of the people to see to it that a superintendent is in charge of the home who is thoroughly interested in the work, who strives for economy and to make the lives of the men and women at the almshouse brighter and better.

**A Potent Suggestion**  
It might be said that all of the statements made by Miss Hinrichsen led to the most important suggestion, that the greatest work along charity should be with children. If proper care and attention are given to all cases of dependent and delinquent children the time will come when the number of adults to be cared for in almshouses will be few indeed.

After the address by Miss Hinrichsen the report of the nominating committee was made by Mrs. Paul Alexander and the following were chosen directors: H. A. Perrin, A. C. Rice, L. O. Vaughn, Miss Luev Catlin, Mrs. J. W. Brown, Mrs. Charles Fawcett, Miss Emma Doving, Thomas Worthington, Rev. W. E. Sprotnes, John Buckley, Miss Emma Weller.

The session closed after Mr. Perrin had expressed the thanks of the league and the company to the speakers for their presence and the presentation of their themes.

New York, Oct. 14.—Continuance of the daylight saving plan in New York City next year was provided for in an ordinance adopted unanimously today by the board of aldermen. Approval of the measure by Mayor Hylan is expected.

### DON'T PAMPER YOUR STOMACH

Fear of Dyspepsia Robs the Entire System of Necessary Nutrition. Eat a Diversified Meal and with Stuart's Dyspepsia Tablets You Will Avoid the Distress of Indigestion.

Just because the stomach sours with gasiness, heartburn, water brash and such distressing after eating, is not a good reason for depriving the system of nourishment.

Instead of indigestible and in-nutritious bran and skim milk try the better plan of eating what you like and follow your meals with Stuart's Dyspepsia Tablets. They digest food, they assist the stomach to secrete juices that keep the stomach sweet, active and with the alkaline effect, just as when the stomach is in perfect health. Nor is it necessary to discriminate. You may eat freely of onions, sausage, mince pie and baked beans, or other dishes, such as the average dyspeptic views with horror, and suffer no distress if you follow with Stuart's Dyspepsia Tablets. There is thus no need to fear any kind of food at any time or place, for with these tablets you may prevent those distresses that formerly made you pamper your stomach as if it were a tender infant. You can get Stuart's Dyspepsia Tablets in any drug store at 50 cents a box.

### BRITISH CAMPAIGN FOR LEAGUE OF NATIONS

LONDON, Oct. 13.—(By The Associated Press.)—A nationwide campaign in favor of the league of nations opened today under the presidency of Sir Horace B. Marshall, lord mayor of London. For the occasion the league of nations union called together many of the leading British statesmen.

In addition, all the foreign ambassadors and diplomats and men prominent in various walks of civil life were present. Premier Venizelos of Greece, Herbert H. Asquith, Sir John Clynes and Lord Robert Cecil, were among the speakers.

Premier Lloyd George sent a message to the meeting saying: "Civilization cannot longer afford to squander its time and treasure on the destruction of its own handiwork. The allied governments are pledged to the league's noble ideals. I appeal to my fellow countrymen to support international order and good will."

King George sent a letter to Lord Robert Cecil in which he said: "We have won the war. That is a great achievement but it is not enough. We fought to gain a lasting peace and it is our supreme duty to take every measure to secure it. For that nothing is more essential than a strong and enduring league of nations. Every day makes this clearer. The covenant of Paris is a good foundation."

FOR COUNTY COMMISSIONER I hereby announce myself as an independent candidate for county commissioner at the election to be held Tuesday, November 4.

CHARLES MAGILL.

### D. A. R. BEGIN ACTIVE WORK FOR MEMORIAL

Committee Appointed to Secure Pledges Met Tuesday—Make Plans for Active Campaign—Have Thirty Day Option of Duncan Home.

The committee appointed at a recent meeting of the D. A. R. to secure pledges from the members for memorial tablets and in this manner secure the Governor Joseph Duncan home for a memorial building held a meeting at the home of the chairman, Mrs. Carl E. Black, Tuesday afternoon.

The committee is composed of the following: Mrs. Carl E. Black, chairman; Mesdames Adams, Brockhouse, Ehnie, Moore, Nelson, Taylor, Weir, Wilson, Caldwell, Montgomery, Alexander, Danskin, Capps, Misses Trabue, Mount, Hayden, Wood and Dummer.

The D. A. R. has a thirty day option on the Duncan residence, the purchase price being fixed at \$11,000, of which \$5,000 must be paid by May, 1920.

Rev. James Caldwell chapter has fifty non-resident members. The committee will solicit the resident members personally while the following letter will be sent to the non-resident members.

Dear Fellow-Member of the Rev. James Caldwell Chapter,

D. A. R.

Your loyalty to our Chapter is shown by the fact that your name appears, annually, on the roll of our members. Now comes an opportunity for you to unite with the resident daughters in making the Chapter a real factor in the history of Jacksonville, of Morgan County and of Illinois.

It is possible to obtain the old Governor Duncan house and preserve it as an historic monument, using it for a Community Club House. Doubtless, you remember the house. It was built, all of solid black walnut, in 1834.

"I don't believe there's any medicine on earth can equal this Tanlac," recently declared W. J. Richardson, a well known switchman on the Rock Island, living at 60 South Fifteenth St., Kansas City, Mo.

"I've gained thirty-seven pounds since taking it and I feel stronger than I have for many years," he continued. "I suffered for a long time from stomach trouble and indigestion and I tell you, I sure had a time of it. I didn't have any appetite and what little I did force myself to eat would sour and form gas that would get up around my heart and smother me so I could hardly get my breath. I had terrible headaches and dizzy spells every now and then, and I had such a pain across the small of my back that it was all I could do to get up when I sat down. I just couldn't get a good night's rest and I lost a lot of time from work on account of the way I felt. Of course I took a lot of medicine but no matter what it was nothing did me any good."

"A few weeks ago I decided to try Tanlac and I hadn't taken one bottle when I began getting hungry and then I found what I ate didn't sour and form gas any more. Now, I'm eating anything I want and never suffer from indigestion. I sleep sound all night long and get up in the morning feeling like a two year old and ready to tackle any kind of work. Yes, sir, I sure do think a lot of Tanlac. I've recommended it to several of my friends and whenever they have given it a fair trial, it's benefited them just the same as me. As far as my own case is concerned, if anybody doubts what I say just tell 'em to come to see me and I'll prove what Tanlac has done."

Tanlac is sold in Jacksonville by Coover & Shreve, in Meredosia by Mr. R. B. Field, in Murrayville by M. E. Gilbert, in Waverly by the Wyle Drug Co., in Woodstock by The Hoy Pharmacy, and in Chapin by Jno. Onken & Bro.

419 EGGS FROM 20 HENS IN 30 DAYS

Mr. Dougherty Got This Result in October—Plan Is Easily Tried

"I tried Don Sung and the results were far past any expectations. I got 419 eggs in 30 days from 20 hens while moulted. I think it is wonderful, as they hardly laid at all before while moulted."—Frank Dougherty, 5940 E. 11th St., Indianapolis.

Mr. Dougherty bought \$1 worth of Don Sung tablets in October and wrote the above letter in November. Figure his profit on 35 dozen eggs from hens that formerly laid little or nothing.

This may sound too good to be true, but it costs nothing to find out. We'll make you the same offer we made him.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be promptly refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer or send 50 cents for a package by mail prepaid. Burrell-Dugger Co., 284 Columbia Bldg., Indianapolis, Ind.

### FIRE DEPARTMENT RECEIVES FALSE ALARM

Tuesday morning at 11:30 o'clock the fire department received a call from Hutson Brothers garage, 219 South Sandy street.

The firm had just completed repairs on an automobile and were trying it out. The garage became filled with smoke and someone

saw it issuing from the building and thinking there was a fire turned in an alarm.

The firemen made a quick run, but found upon arrival that their services were not needed.

## A Saving that Belongs to You

Some writer once said that it took him so long to make up his mind that he must have an awful lot of it.

It didn't take us long to make up our minds what to do when we found that prices have advanced so since we bought our fall goods that our clothing is worth much more than it was a few months ago.

We decided that the saving we made on our early buying belonged to you; and you're going to get it in the best clothes made.

## Big Lot of HAY FEVER JOKES

But Kentucky Man Says—"People Who Belong to Hay Fever Society are Kidding Themselves."

Wouldn't Be Any Rose or Hay Fever if Simple Home Remedy Was Given a Chance.

"Yes, there's a real NINETY-NINE per cent effective remedy for hay or rose fever," frankly states a druggist in a prosperous Kentucky city.

"But I don't expect anyone to believe me, because the treatment is so easy and the cost not worth mentioning."

"The annual crop of hay-fever jokes would be mighty scarce if people would get an ounce of Mentholized Arcine and by just adding water that has been boiled make a pint of liquid that will prove a real help to all who suffer."

"Many of my hay-fever friends tell me that by starting to gargle and sniff or spray the nostrils a few times a day the expected severe attack often fails to appear and in cases where it does show up is very mild and does not annoy."

"The Better Class of Pharmacists" who dispense Mentholized Arcine say it will greatly modify any attack even when taken three or four days after hostilities begin.

Go to a real live druggist when you get ready to make a pint.

## 7 A DAY FOR 7 DAYS

If Your Nerves Are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and a new wind by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition.

All you have to do is to take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes clearer, if you don't feel twice as vigorous as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, run-down, weak, paucic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many pack-

"Done?" Yes, we finish our day's work and spend the remaining hours at what we think best. But come to think, our eyes work 12 to 18 hours every day and during that time there is never a stop or rest.

A perfect pair of eyes is rare. Nature is seldom exact, so it is highly important, if you suspect your eyes need assistance, that a reliable optometrist be consulted—one whose knowledge, skill and experience are assurance of correctly fitted glasses.

## IN MEMORY

Of Little Artis Brooks who died Oct. 14, 1918:

Dear little mother, do not grieve; For the dear one gone to rest; The dear Lord takes and gives; And He doeth all things best.

So we must trust Him now; And for all the time to come; And to His Holy Will must bow; Until He calls us home.

Your little boy was good and bright; And we know you miss him too; But the dear Lord doeth right; And He will take care of you.

Bright little tots from everywhere Are gathered in God's fold; Like priceless jewels rich and rare, Most beautiful to behold.

While Artis now is one of these, Strive not to be so sad; Let all your mournful thoughts now cease.

And with your child be glad, M. O'Hara.

# What Is Big Business?

**B**USINESS, be it big or little, is production and distribution of commodities and service.

The size of a business is measured by the service it renders the public and regardless of the capital invested, it never can become Big Business unless its output of useful service is great.

The Standard Oil Company (Indiana) is classified with big business and it deserves to be, for from the day of its organization the goal toward which every effort has been directed has been to render a useful service to the public at large.

Originally the purpose of the Company was to manufacture and sell an illuminating oil of superior quality, but as the years have passed the Company has been able to take a wide range of other useful products from crude petroleum and has made them available to mankind.

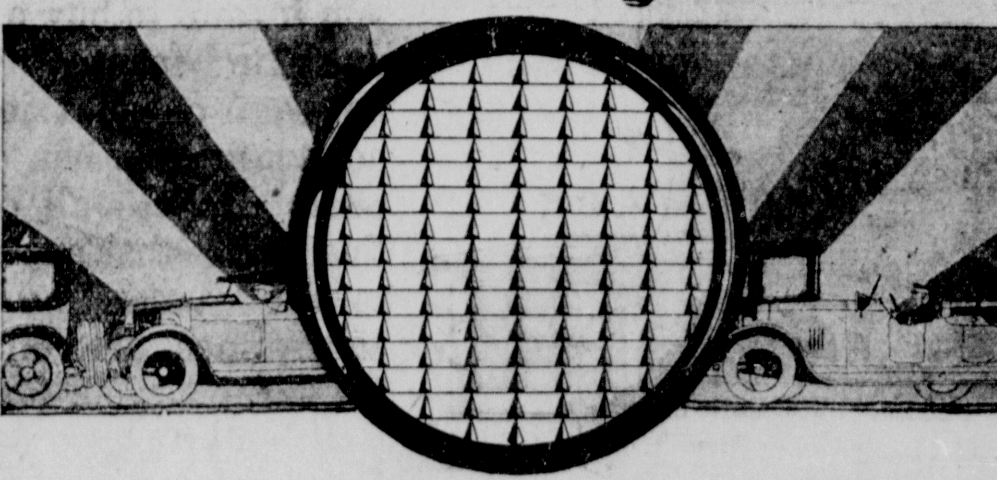

Today the Standard Oil Company (Indiana) is big because its job is big, and as the job expands so must this organization if it is to keep pace with the insistent and ever-increasing demands of a discriminating public, and thereby discharge completely its obligation as a public servant.

## The Sun-Ray Lens

A Better Lens—at a Lower Price.

Here is the new Sun-Ray Lens—one that gives you all the advantages of other lenses, and more.

Yet it sells profitably at \$1.75 per pair.

Sun-Ray Lens gives all the advantages of diffusion, plus all the advantages of deflection.

It meets the complicated legal requirements of every state in the Union.

Thick triangular prisms on the inside of the lens give wide side diffusion and reduces glare without interfering with the effectiveness of the driving light. Horizontal prisms, also on the inside, bend the light rays down on the road, preventing waste light up in the air, and complying with all 42 laws.

The outside surface is smooth, preventing dust, mud and snow from caking on the glass and dimming the lights.

The Sun-Ray Lens at the \$1.75 price offers a tremendous opportunity to dealers everywhere. In Sun-Ray Lens you are able to offer your trade a scientifically designed and constructed lens—a lens with real talking points and exclusive features—and for \$1.75 a set, any size. A price within the reach of every motorist.

The lens field is large—and constantly growing.

FARM PROPERTY

on the job after a month's vacation. I've spent the time in getting land values and crop conditions in Missouri, Kansas, Oklahoma. I feel it is due my patrons to have the best to offer in the land. There are still some sections that the land boom has not reached. Consequently there are a few spots where the farmer can buy a good income on the investment in light farming basis, and subject to rapid advances in value. We will sell you land and other good farms in the west. I'll be sure to interest all home seekers. We are glad to be gain at your service. Come in any time and let us talk things over.

320 acres, 75 miles from Kansas City, one and one-half miles to a good railroad town with elevator, bank and several stores. Good land and no waste land. Thoroughly fenced with four rows of wire and cedar posts. Soil in high state of fertility, for alfalfa. There is a house of eight rooms almost new, with natural gas from the farm. Four room tenant houses, large horse barn 68x120. Double corn crib 65 foot long with adjoining. Concrete silo, garage for three cars and several new buildings. Price \$160.00 per acre.

South of Kansas City we have a farm of 647 acres formerly owned by Senator Fallon, President of the Anti-Single Tax league. Significant house and large barn are situated in the center of the farm on an elevation commanding a complete view of the surrounding country. Land is level to gently rolling and in high state of fertility. One-half is now in blue grass, timothy meadow and alfalfa. Remainder in wheat, oats and corn. Inexhaustible spring. There is a house of twelve rooms, finished in oak and mahogany. There is a full basement, furnace heat, gravity system. Delco lighting system for house, barns and all out buildings. One horse barn 40x60 feet with basement and a second 100x100 feet used for hay storage and stock feeding. There are modern poultry houses that are new, each 16x32 feet. Stock feed mills, machine shed, garage and other buildings. Three tenant improvements with five room houses and barn, and all in good condition. This farm has never been offered until now and will soon sell at the price, \$160 per acre.

### NATIVE OF MEXICO LITERBERRY VISITOR

Miss Helen Herschkowitz Visiting Mr. and Mrs. Durrell Crum. Was Born and Reared in Old Mexico—Literberry News Notes

Literberry, Oct. 13.—Mr. and Mrs. Durrell Crum of "Allegretto Farm" are entertaining a very charming young lady from Mexico City. Her name is Miss Helen Herschkowitz, and she was born and raised in Old Mexico. Her home at present is in St. Louis. We are thinking she might change her name to one shorter and easier to pronounce, one like Joy, Crum, or Litter, then we Literberry people could pronounce it.

Ernest Young, who recently was treated successfully at Passavant hospital for a serious ailment, has returned home, loud in his praise for the hospital and all connected with it.

There is still a sugar famine in Literberry, but we are not much alarmed about sweets when we remember that W. W. Young has a fine lot of sorghum, and our Grace Chapel neighbor, Chester Braner, has many pounds of honey.

"Seven Gables," the newly painted and repaired property on Broadway is being occupied now by Mr. Robinson and family.

The Literberry M. E. society met on Wednesday in an all day meeting with Mrs. Roscoe Good pasture. About 25 persons were present and a very interesting meeting was held. The hostess served a swell dinner at noon, of all the good eats of the season. The pretty prize given for the squash contest was won by Miss Ellen Deatherage. The next meeting will be at Literberry the 2nd Wednesday in November.

Rev. W. R. Johnson filled his regular appointment morning and evening at the Baptist church. The morning sermon was from the subject "For Barnabas was a good man, and full of the Holy Ghost and faith." The evening sermon was from the subject "Make the most of the best that is within you." Both sermons were good and were heard by a full house. The people like Rev. Johnson for he always has something worth while to tell them.

VISITED AT SMITH HOME  
Rev. M. N. Rieg of Virginia and Rev. Fred Deming of Lowder visited with Mr and Mrs. Smith of 223 Caldwell street, while attending the Methodist Conference of the Jacksonville district.

Miss R. Sinclair of Virginia shopped here yesterday.

### GIRL IS AWARDED MILITARY HONORS

Given Military Scholarship at U. of I. This Year—Only Girl in State So Classified.

Urbana, Ill., Oct. — Miss Budy Mae Streitmatter of Princeville, Ill., will be given a military scholarship this year at the University of Illinois, the only girl out of hundreds of men who will be so classified. It is thought that she is the only one in the state.

The state law passed last spring provides a free scholarship to "persons" who served in the army, navy or marine corps of the United States, exclusive of the S. T. C., and who were at the time of entering service, either a student at the University or residents of the state. Use of the word person shows that the law does not discriminate against against women.

Miss Streitmatter presented a release from the nurses training corps and her certificate showed that she had been in France nearly two years, serving at base hospitals and being accorded by the government the same privileges accorded to soldiers such as bonus and war risk insurance.

Her enlistment and discharge papers referred to her enlistment in the military establishment of the United States, and it was decided by University authorities that this came under the spirit of the law. Thus Miss Streitmatter will be given a scholarship.

She was able to fill all University requirements and has entered as a matriculated student, choosing the pre-medical course.

It is estimated that about 2,000 students or more will apply for military scholarships, beginning Oct. 1, will be given out by the University. This will refund tuition and matriculation fees to all returned men enrolled here.

### MANY ALIENS RETURN TO NATIVE LANDS

Toledo, O., Oct. — Six hundred aliens have left this section since the first of last April to return to native lands, according to federal agents basing their calculations on figures at the Port of New York.

Revenue agents say the average bank account of each foreigner is \$500, which means that \$300,000 have been drawn from local banks, they say. Most of the emigrants are Poles and Greeks.

### W. J. BRYAN TO SPEAK ON PROHIBITION

Toledo, O., Oct. — William Jennings Bryan, former secretary of state and several times candidate for the presidency, will speak in Toledo for the prohibition cause Oct. 26, closing the campaign which the local branch of the Anti-Saloon League has launched in an attempt to defeat the wet initiative and referendum which will be submitted to Ohio voters on November 4.

Col. Dan Morgan Smith of the "Lost Battalion" or Argonne Forest also is scheduled to speak with Mr. Bryan.

### TOLEDO POLICEMEN TO HAVE HIGHER PAY

Toledo, O., Oct. — To prevent an occurrence of trouble similar to that in Boston when policemen went to strike, Mayor Cornel Schreiber has ordered an increase in pay for policemen and firemen. New men starting on the police force here receive \$100 a month or the first six months and \$125 a month hereafter. Mayor Schreiber proposed to add \$25 in each instance.

Both policemen and firemen are organized here to some extent but their union has not been operative.

### GUARDIAN'S SALE

Dated this 7th day of October, A. D. 1919.

William Thomas Brown, Administrator.

### SEEK TO HAVE OHIO REPUDE PROHIBITION

Toledo, O., Oct. — Brewery and liquor interests of the whole United States are dumping money into Toledo, Cleveland, Cincinnati, and other former wet strongholds in Ohio in efforts to swing the state out of the dry column at the next election, according to V. A. Schreiber, superintendent of the Anti-Saloon League for this district.

Mr. Schreiber, continuing said, "Levy Mayer, Chicago lawyer representing liquor interest, said some time ago that Ohio was the keystone state in their fight this year. Mayer said if Ohio repudiated prohibition on November 4 the wets would bring immediate action in all states which have the initiative and referendum with a view to knocking out their ratification of federal war-time prohibition."

I will not be responsible for any bills contracted by any one other than myself. C. D. Meade.

## ESSEX

Motor Cars

## Have You Examined

A Smart Five-Passenger Model of the Light Car Men Praise so Highly

## The Essex Sedan?

You must have seen this dainty new Essex. More than a thousand are in service.

You Will Recognize It at a Glance

It comes in the same beautiful green that distinguishes the Essex touring car. The body is simple with the newest square lines, low roof, but with ample head room, wide doors, deep seats and high backs.

Has Large Car Comforts With Small Car Costs

For one reason, men speak of the Essex as they do, because of its costly car finish and equipment. The Essex has no useless length or weight and no sacrifice has been made in any of the comforts. It has all the passenger space that larger cars afford.

You have but to ride in an Essex to know its comfort. There is the large car's solidness about it that removes all sense of its weight or size.

And yet its size gives distinct advantages.

It makes the Essex easy to drive. It can be steered with two fingers. It can be turned in a short radius, parked in a small space, and of course there is an immense saving in operating costs.

And, too, its size accounts for its costly car quality at a moderate price.

It Is Just as Lively as the Other Essex

Many will tell you the fastest automobile ride they ever enjoyed was in an Essex.

Others say it is the quickest and liveliest car in acceleration they know. We leave it to the Essex to reveal those qualities.

But rest assured it is not sluggish. It gives way to no car where acceleration, speed and comfort of driving and riding are concerned.

The season when the Sedan will be most enjoyed is approaching. So you should speak for your Essex without delay. The one thousand in service, to say nothing of ten times as many touring models in use indicates a continued Essex shortage.

## THE OBSERVATORY

Quite a number of Jacksonville residents have been up in the air lately due to the arrival of the Carrollton aviators. It appears to a casual observer, however, that a number of people have taken to aviation lately who have not ridden in Pilot Niedemeyer's machine at all, but because of his success here and possibly because hundreds enjoyed watching his flights at the Park Sunday.

"We've never been up in an airplane," says the editor of the Smileyville Express, "but our experience with various birds in the wind makes us feel that it was a mistake to make that air contest an aerial derby—it ought to have been a handy cap race."

Those girls who are tearing out their eyebrows by the roots, leaving only a thin straight line in imitation of some movie vamp

## Radiant

The whip of wind in the face when motoring brings out all its natural beauty of color if the skin is prepared to endure the out-of-doors.

Soul Kiss Face Powder, dusted on freely before exposure, helps to protect the complexion against wind and sun and makes it glowing and radiant.

Meyer Brothers Drug Co.  
Saint Louis

may be storing up confusion for themselves. Everybody can tell their exact age fifteen years hence by their disfigured eyebrows. "Oh, yes," the Dames will say, "she's at least thirty, for she has the old fashioned eyebrows that went out in 1920."

"Perhaps," suggests a discerning woman, "fewer needful salaries would be wrecked about this time each fall, if the Jacksonville banks would inaugurate world's series savings funds for betting purposes, as Christmas and vacation funds are now conducted for spending purposes."

Let's not argue with the sport writers who still maintain that the White Sox have more "class" than the Reds. The "classiest" waltzer we ever saw never brought home a pound of bacon in his life.

As a matter of fact neither the administration nor Congress has much ground on which to criticize the methods of the other. While the administration is trying to get us out of future wars before getting us out of this one, Congress works just as hard against a sugar shortage next year without relieving the one we have now.

Now that the visiting birdmen have departed the Nichols Park golfers can continue their game unmolested for a time. It would seem to one of unprejudiced view that the golfers are the king bees at the city's largest park, a project supposed to be for the citizens of Jacksonville. The golf fans evidently have the most influence as they have to date chased the base ball fans, the gun club fans, the airplane fans, and sightseers from the links. Better give 'em a deed to it.

**His Amazing Eccentricity**  
"I have reached the age of 83 years," admitted old Tybalt Tottor, "and yet I do not think that a man is only as old as he feels. I feel like a young fellow. I have never had much cause to complain of anybody's lack of respect for the aged—I find that the aged generally get all the respect their behavior entitles them to. And I have found that the average busy citizen is not interested in the trivial happenings of 1854 and thereafter. As well as I can remember, the weather back yonder was usually about the same as it is now. I cannot say that I am greatly surprised to find profiteering going on, for to the best of my recollection a considerable proportion of the people have hogged each other at every chance they got. But what is especially queer about me is that I do not make a practice of denouncing and cutting the same fool capers that I did when I was their age."

**The Probable Period.**  
"How much longer," growled a guest, "are those two old codgers over there in the corner going to continue to wrangle?"  
"About an hour, prob'ly," replied the landlord of the Betunia tavern. "They are discussing the League of Nations, and they've only just got as far as arguing yet. They have to cuss and yell and call names before they get it settled for today and start off home madder than wet hens."

**What the League Did in Alabama**  
In England the bye election is closely watched, as a political barometer. The prime minister may have a majority at his back. But when a member drops out and a successor has to be elected, the outcome is taken as a straw showing whether the government still has the country behind it.

Such an election took place in America the other day in the Seventh Alabama District. The fight of a Republican in Alabama is always hopeless. But this one was made on the issue of the League of Nations, with impressive results.

In a district where the Democratic plurality had ranged from sixteen hundred to thirty-seven hundred, the congressional candidate squeezed through with a plurality of only 493. Sentiment was running so strongly against the league at the end of the discussion of the campaign that the Republicans felt another week's debate would have elected their candidate.

This overturn, it must be remembered, was no ordinary one. It was in a state where people take their Democratic affiliations almost as a religion.

Some of the senators at Washington have not discovered the fact yet, but this country has made up its mind against a League of Nations.

## ASBURY

Services will be held at Asbury church Sunday afternoons. Bible school at 2 o'clock and preaching at 3 o'clock. Everybody invited to attend these services.

Mrs. Edward Craig and Mrs. Carl Hembrough attended the dinner given at the home of Mr. and Mrs. John Shirley in Clements last Thursday.

Mrs. Walker spent Sunday with relatives in Manchester. Mr. and Mrs. Frank Hembrough and daughters, Anella and Grace, and Mr. and Mrs. George Hembrough and daughter Marie spent Thursday at the home of their uncle, Robert Wagstaff, near Murrayville.

Delos Craig returned home Saturday from a week's visit with his cousin, George Little, west of Manchester.

Why Do Women Suffer

## WHY DO WOMEN SUFFER

When There is Such a Remedy for Their Ills as Lydia E. Pinkham's Vegetable Compound?

Mishawaka, Ind.—"I had such a severe female weakness that I could not do my work and I could not get anything to relieve me. A physician treated me, but it did no good. I had been in this condition for three months when I began taking Lydia E. Pinkham's Vegetable Compound (tablet form) and it cured me. I keep house and am able to do my work now. I certainly praise your medicine."—Mrs. SUEA OLDFATHER, 548 West Second Street, Mishawaka, Ind.

Women who suffer from such ailments should not continue to drag around and do their work under such conditions, but profit by the experience of Mrs. Oldfather and thousands of others who have tried this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and found relief from such suffering. If complications exist write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years' experience in advising women on this subject is at your service.

When The Day Is Over

When the household cares and the worries of everyday life have dragged you down, made you unhappy, and there is nothing in life but headache, backache and worry, turn to the right prescription, one gotten up by Dr. Pierce fifty years ago. Everything growing out of the "round" ems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what naturally best for women's diseases he learned it all through treating thousands of cases. The result of his studies as a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakness, bearing-down pains, irregularities, pelvic inflammations, and for the many disorders common to women in all ages. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and regon grape root. Dr. Pierce knew when he first made this standard medicine, that whiskey and morphine are not only useless, but they are always kept the out of his remedies. Women who take his standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it, in liquid or tablet form.
